A NOTE REGARDING THE ENVIRONMENT

We at Three Bear Lodge are concerned about the environmental impact of motorized vehicles in Yellowstone National Park. Therefore, we have led the way in preserving and protecting Yellowstone with the most environmentally friendly transportation methods available. We were the first to use Yellowstone Park approved 4-stroke snowmobiles and more environmentally friendly fuels in our snowmobiles and snowcoaches.

Let Three Bear Lodge help you experience the Four Seasons of Yellowstone Country, where each season brings a new Yellowstone Vacation Adventure.

 *During the winter* enjoy hundreds of miles of snowmobile and cross country ski trails in the National Forests, for all experience levels. We are Yellowstone Park concessionaires for guided Snowmobile trips and Snowcoach tours.

 *In the spring* the park awakens from its winter slumber with emerging plant life, bears, wolves, nesting bald eagles, elk, moose, bison(buffalo) and their newborn calves.

 *When summer rolls around* the best and most relaxing way to see Yellowstone and Grand Teton National Parks is with one of our guided van tours. Other summer activities include horseback riding, whitewater rafting, flyfishing and many other outdoor recreational adventures.

 *Fall is perfect* for late season flyfishing, warm autumn colors and the unforgettable sights and sounds of bull elk battling for their harems.

Rebuilt from the ground up,
it's far more than a new facade.

Welcome...

From the moment you approach this impressive Lodge, you will realize it is no ordinary hotel. From the massive volcanic rock, log, and beam exterior, through the dramatic lobby and reclaimed materials in the common areas—you will know you are in for a unique experience. As you open the door to your spacious and comfortable room you will be enraptured by the handmade furniture crafted with reclaimed wood from the original 1932 buildings. Then you'll realize your adventure has already begun.

Lodging Options To Fit Your Needs

As a result of a fire in February 2008, part of the 1932 Three Bear was carefully taken down, allowing the new lodge to utilize materials salvaged from the original building. With handmade furniture crafted with reclaimed wood (from the massive headboards to the towel holders), every room in the new Lodge has a unique feel. Our spacious rooms and distinctive layout offer a quality unsurpassed in the area.

Themed Lodge Room

For families and larger parties, we have two room suites in both the Lodge and Motel. To further enhance your Yellowstone Vacation, we have developed a limited number of "Goldilocks and the Three Bears" themed rooms to create memories that will last a lifetime.
